Unusual Stone Outdoor Shower - Vulcano by Wet

This unusual stone outdoor shower embraces nature, but splashes it up, so to speak. The Vulcano shower by Italian company Wet towers over you with its sculptural, stepped silhouette. These modern monoliths feature a refreshing stream of water that becomes part of their eye-catching, inviting design. Designer Jan Puylaert has done everything from breakfast tableware to lighting and furniture, and he does it with futuristic flair. Likewise, this unusual stone shower doesn't disappoint. The Vulcano also comes in a striking washbasin design, to complete your outdoor bathroom suite. [Click here](#) for more info.
